### THE HICKMAN COURIER.

#### NO WAR.

#### England Backing Down.

The warlike news from England and Russia has changed decidedly the past few days, and it now looks like peaceful negotiations will prevail. England appears to be backing down in having recalled Sir Peter Lushington, instead of compelling Russia to recall Gen. Bismarck. Russia, on the other hand, is in fact, Russia is so situated by discontents and threatened rebellions at home that war is undesirable to the Czar to ruin his people. War, with English units Russia. Peace, disrupts the Czar's empire.

The Louisville Democrat charges W. B. Wilson, of that city, as one of the three who are competent, among the large number of applicants, for the Surveyorship of the Port of Louisville. Capt. Wilson formerly lived at Hickman, and we have some idea of his worth, and we know him as a man of the moral character and excellent business qualifications. His chances for the appointment are said to be good. Capt. W. is a native Kentuckian, a good Democrat and a good business man, and would not doubt make an excellent officer if appointed.

An extra session of the Tennessee Legislature is about to be called for June 1. This is rendered necessary by the Legislature members absenting themselves to defeat a registration law. The proposed Tennessee Constitution law only applies to Nashville, Memphis, Knoxville, Chattanooga and Jackson. Nearly all the States have such laws in force in the cities, and most of them have been passed by the Legislature. Hence the Tennessee Legislature.

The English Government has already withdrawn from the trade of the steamships of the Cunard, and other lines of the Atlantic, and is now taking the same course with the American and European. The American Government has chartered for six months at the rate of \$22,000 and 6 cents per ton, aggregating \$12,000 and \$22,000 each per month. They are to be armed as cruisers, and to be used as convoys and troop ships, and to patrol the sea in search of privateers.

Text papers give an account of one man boarding a train last Friday, in Indiana, knocking the baggage-master in the head, and blowing the express messengers out of the train, and robbing the express car of \$120,000, then rigging the train down made his escape. The James boys to chance—they have had 6 or 8 assistants. See full details in this paper.

The wife of the Czar is a sister of the Princess of Prussia. The Grand Duke has married Queen Victoria's granddaughter, and the Duke of Saxe-Coburg is in the Czar's sister. It is a regular family quarrel that is brewing. All of which shows that the marriages of reigning families have little influence on the relations of the countries.

Mr. Willis White, of Clinton, was in the city last Thursday en route to Paducah. When about to get aboard the cars two police gentlemen kindly assisted him to mount the steps. While they were being so polite one of them snatched \$25. He was then taken to the book of his pocket which contained \$25. He was then taken to the book of his pocket which contained \$25. He was then taken to the book of his pocket which contained \$25.

"The fellow who asked for a pardon for Jeff Davis probably feels like a whipped animal, and is glad to become as available as the Ben Butler party. The ex-Confederate President has announced that he doesn't need a pardon, doesn't want a pardon, and wouldn't under any circumstances have a pardon."—Owensboro Inquirer.

Members of the Spanish cholera commission have been vaccinated each other with what is supposed to be diluted cholera virus. It is only reported as a joke. It is only reported as a joke. It is only reported as a joke.

If war comes there is likely to be a coal famine about St. Petersburg, and in Eastern Europe. Russia has plenty of undeveloped coal, but it is a long way from her coast. But the little party of Russia, and that trade will of course stop with the war.

### THE ADMIRALTY AND THE REPUBLICANS.

#### It is amazing to observe the efforts of the Republican party to break the secret vote of the Presidential administration.

The prospects of a prospective voyage are so encouraging, that the Republicans are getting excited. They are afraid of the future of the growing popularity of Democratic rule and of the Republican chances of regaining their hold on the federal office. So far, their efforts have been misdirected. The commerce and industrial institutions of the country are getting along well. Our liberties appear quite safe, the colored men in the Southern States are getting along well, and happily, the Confederacy is not in the saddle, but peacefully at home and at work, and altogether the first days of Democratic rule are attended by the happiest auspices, and is not pleasant to the Radical leaders; they would rather see a political peace and prosperity, and are at a loss for an opportunity to stir up some discord in the harmony and to cause the effect of the prodence and the prompt business spirit exhibited at Washington.

#### What is the White Man's Objection?

Three Massachusetts men have obtained a charter from the State to send three men to Kansas to see the situation of the people. They mean to effect a settlement, and to secure the white man's rights. They mean to effect a settlement, and to secure the white man's rights. They mean to effect a settlement, and to secure the white man's rights.

#### What Cleveland Says.

Of the one hundred thousand votes of Cleveland, nearly one-half are not affected by the civil service law, that is, the votes of the fourteenth, fifteenth, sixteenth, and seventeenth wards. There has been no real effort to bring home to the people the meaning of the law. The law of the land condemns them, but this will do them no good. The change into what we understand that they stand condemned by that "higher law" before the other "win rule of barbarism" went down.

#### War Between France and Russia.

The war of preparation began by Capt. Shields, of the Clinton Tribune, has been taken up by the Editor of the Clinton Tribune. The fight for the nation's glory, the preservation of the Union, the preservation of the Union, the preservation of the Union.

#### EDITORIAL TRANSCRIPT.

It seems that my enemies are determined to force their fight upon me to the last extremity, and I am ready and willing that such shall be the result.

In my former reply to Mr. Hamilton I stated that "as to the honor of his friends, I would not give money to secure my election. I disclaim all knowledge, and it was done in a matter which I had no connection, and any man who charges that I was a dueler, and goes out of his way to make a charge, stands branded with these epithets, and his children's children will be ashamed of him."

#### W. P. KIMBALL.

Both men are deemed good, and there will probably be trouble when they meet. An invitation to a trip beyond the State limits, coming from either, will not be a surprise to the other.

#### A Sample of Our Text Foreign Policy.

The revolution on the isthmus of Panama, which forced us to interfere for the protection of American interests, is at an end, and we may rejoice that it is. It is a disgraceful and not altogether profitable task to interfere in the domestic matters of other nations. It is a disgraceful and not altogether profitable task to interfere in the domestic matters of other nations.

### THE LOSS OF "HOLTER" AND HIS SHOWN AT FALCON, KY.

#### Depot to be on the Hill.

The appearance of the locality about the railroad depot, and grounds has undergone a radical change this week. The tracks leading into that point having been taken up to a point near the pump factory. This movement was probably made to give a better view of the river, and, temporarily at least, inconvenience our business and business interests considerably. For the present the depot is to be near the pump factory, but it is not likely that the depot will be moved to a permanent location on the hill—perhaps near the Frank Hamilton property, and possibly ultimately extended into West Hickman. The surveyors on the hill will be made in a few days, and if everything is found agreeable, work will be commenced immediately. Many are inclined to view this change as a mistake, and if it was possible to maintain a track made the hill, it certainly be so viewed, but that being impossible, we predict that the change will ultimately result in great advantage to the town and to the railroad—adding to the business prosperity of both. The railroad and the town have each a clear benefit, and a long, brave fight, and the change is a good one. The change is a good one. The change is a good one.
